[Linkedin.com/in/abhinav-choudhary-09844a1bb](https://www.linkedin.com/in/abhinav-choudhary-09844a1bb)

Dynamic and driven engineering graduate with a solid foundation in software development and design. Proficient in C, C++, HTML5, CSS, Python, and Django, with hands-on experience in building scalable web applications. Possesses a foundational understanding of Machine Learning, Natural Language Processing, Computer Vision, and Deep Learning. Quick to adapt and eager to embrace new technologies, with a proven ability to learn and apply complex concepts efficiently. A strong team player and effective communicator, known for contributing meaningfully to collaborative projects and explaining technical ideas with clarity. Adept at problem-solving, thriving under pressure, and consistently delivering high-quality, detail-oriented work. Highly self-motivated with leadership potential, capable of working independently or within a team-driven environment.

Top Skills

Python: Proficient in Python, demonstrating a top-tier skill set.

Versatility and power across various domains, including web development and data analysis.

Machine Learning: Expertise in Machine Learning for driving impactful insights.

Enhancing decision-making processes and optimizing operations through ML algorithms and models.

Django: Skilled in Django, leveraging its powerful framework for rapid, secure web development.

Expertise in building scalable, maintainable web applications with clean architecture and robust backend logic.

Projects

Plant disease detection

11-2023-03/2024

- Developed a deep learning model leveraging convolutional neural networks (CNNs) and Transfer Learning techniques for precise plant disease detection from images.

- Utilized GPU-accelerated frameworks like TensorFlow and PyTorch to train the model, resulting in high accuracy rates in disease classification.

- Utilized the OpenCV library and potentially other relevant tools for preprocessing images and enhancing readability.

Multi-Vendor Marketplace

01/2025-03/2025

- Built a full-featured multi-vendor e-commerce platform using Django, allowing multiple sellers to manage their products, orders, and dashboards independently.

- Implemented secure user authentication, product categorization, cart and checkout systems, and integrated payment gateways for seamless transactions.

Experience

Meta Scifor Technologies Pvt. Ltd

11/2024-02/2025

- Completed an intensive training focused on **Python programming** and the **Django framework**, covering basic and advanced concepts.

- Gained hands-on experience in backend development, REST APIs, and database integration using Django.

- Worked on real-time projects and assignments to strengthen practical understanding of full-stack web development using Python.

- Acquired strong problem-solving skills and applied best coding practices following industry standards.

Education

B. Tech CSE: Graduation Year (2024), Lovely Professional University, Phagwara, Punjab.

12th Grade: Alpine International School, Jalalabad Shamli.

CGPA: 7.8

Achieved Score: 78%

Certification

Our Energy Future (Coursera): Gained insights into sustainable energy solutions, policy frameworks, and emerging technologies shaping the global energy landscape.

06/2021-07/2021

DSA self-paced (GeeksForGeeks): Self-paced Data Structures and Algorithms course, gaining a comprehensive understanding and proficiency in fundamental concepts and problem-solving techniques.

06/2022-07/2022

C++ Beginner to Expert (Cipher Schools): Covered key concepts and advanced techniques in C++ programming for comprehensive skill development, including OOP concepts and DSA knowledge.

01/2023-03/2023

Natural Language Processing (Coursera): Completed a series of 4 comprehensive Natural Language Processing courses

covering various advanced topics: “Natural Language Processing with Classification and Vector Spaces, Natural Language Processing with Probabilistic Models, Natural Language Processing with Sequence Models, Natural Language Processing with Attention Models.” **07/2023-11/2023**

Machine Learning Specialization (LPU): Completed the Machine Learning Specialization at Lovely Professional University, gaining comprehensive expertise in foundational and advanced concepts of machine learning. **08/2023-05/2024**

Django Development (Udemy): Completed a comprehensive Django course covering full-stack web development, authentication, ORM, and deployment of scalable web applications. **02/2025-08/2025**
